Hello everyone:

Here are some items of note that may be of interest (final RAF charter and next steps) and an opportunity to weigh in on the revised RAF proposal for developing a dose response framework.

- ## Ex. 5 Deliberative Process (DP)

- **Next steps for RAF:** An interim vice-chair position is being filled from the current Forum membership. A new membership effort will be undertaken in early 2017.
- **Revised Draft Proposal for RAF Project to Develop a Dose Response Framework:** ORD's previous comments

Ex. 5 Deliberative Process (DP)

Action item: Please feel free to review the materials and get them to me as soon as possible but by **COB Monday, Nov 21**. The OSA has also offered further discussion with the authors of the proposal if folks think that would be helpful.

I would be most appreciative if you would let me know if you plan to comment asap so that I can coordinate with Bob K. Please let me know if you have any questions.

Lynn
